# RED OXIDE PRIMER

Rev. 2

T.D.S.

### DESCRIPTION

A top quality general purpose primer designed to give protection against corrosion to all iron and steel surfaces exposed to the elements.

### PERFORMANCE FEATURES

- Fast drying
- Good metal protection
- Exceptional storage stability

### PHYSICAL PROPERTIES

Specific Gravity	:	1.30
Flash Point	:	40°C (112°F) <b>based on major solvent component</b>
Gloss	:	Slight
Colour	:	Red Iron Oxide
Drying Time:-		
To Touch	:	15-30 minutes
Hard Dry	:	24 hours
To Re-coat	:	overnight

### COVERAGE RATE

Approximately 380 – 400 square feet per gallon.

### SUGGESTED USES

Brush or spray on iron and steel surfaces for corrosion resistance.

### SURFACE PREPARATION

Remove all oil, grease, rust, dust and other loose material. Apply the first coat of Primer immediately after cleaning.

### APPLICATION

Brush on substrate – no reduction necessary.

Spray – reduce with up to 500 ml EdgeChem Oil Paint Reducer to 3.75 litre Primer. Apply even coats.

### SHELF LIFE

2 years

### CLEAN-UP

Clean up with EdgeChem Oil Paint Reducer.
