# RETARDER SOLVENT

Rev. 2

T.D.S.

### DESCRIPTION

EdgeChem Retarder Solvent is a colourless liquid used to prevent blushing associated with high relative humidity.

### PERFORMANCE FEATURES

- Prevents blushing
- Maintains gloss at high humidity

### PHYSICAL PROPERTIES

Boiling Point	:	168-173°C (ASTM D-1078)
Flash Point	:	67°C (Abel)
Auto-ignition Temperature	:	240°C (ASTM E-659)
Density	:	0.898 – 0.902 g/ml.

### SUGGESTED USES

For use with EdgeChem Gloss Lacquer and Sanding Sealer to prevent blushing when relative humidity is high.

### SURFACE PREPARATION

See data sheet for EdgeChem Lacquers and Sanding Sealers.

### APPLICATION

Add one cap full to one spray gun cup (approximately 450 ml) and apply as for instruction for Lacquer and Sealer.

### SHELF LIFE

4 years

### CLEAN-UP

Clean up with EdgeChem Lacquer Thinner.
